

ZUCCHETTI.

MARCA ZUCCHETTI / MARQUE ZUCCHETTI

Desde hace 95 años Zucchetti crea grifería y accesorios para el baño de diseño. Una producción excelente, realizada en Italia por personal experto y altamente especializado eligiendo con atención materiales preciados y soluciones tecnológicas y productivas de vanguardia para garantizar siempre el máximo resultado.

La gama de productos es amplia y versátil, diseñada para adaptarse con elegancia a cualquier proyecto de interiores y ser fácilmente accesible para todos los usuarios.

Investigación e innovación, cultura de proyecto, calidad y servicio al cliente son parte de la experiencia de Zucchetti, que a lo largo de los años ha contado con la colaboración de numerosas firmas prestigiosas del diseño internacional para interpretar y anticipar las necesidades de un mercado global.

Zucchetti es una consolidada empresa industrial que mantiene la capacidad y la voluntad de proponer paralelamente una actividad personalizada, capaz de acompañar cualquier necesidad de proyecto.

Depuis 95 ans, Zucchetti fabrique de la robinetterie et des accessoires pour les salles de bains design. Notre production d'excellence est réalisée en Italie et confiée à du personnel expérimenté et hautement spécialisé. Les matériaux de qualité soigneusement sélectionnés et les solutions technologiques et de production d'avant-garde adoptées nous permettent de toujours obtenir un résultat optimal.

Notre gamme de produits, vaste et transversale, s'intègre avec élégance à tous les projets d'aménagement intérieur et peut être utilisée par tous les utilisateurs.

La recherche et l'innovation, la culture du projet, la qualité et le service à la clientèle font partie de l'expérience Zucchetti qui a su, au fil des années, collaborer avec de nombreuses signatures prestigieuses du design international pour interpréter et anticiper les exigences du marché mondial.

Zucchetti est une entreprise industrielle solide qui a toutefois la capacité et la volonté de proposer en parallèle une activité de production sur mesure, qui nous permet d'accompagner tous les projets et de satisfaire leurs exigences.

CALIDAD / QUALITÉ

Zucchetti mantiene altos estándares cualitativos en lo que respecta a los productos, los procesos productivos y las políticas ambientales, persiguiendo una estrategia empresarial orientada hacia la mejora continua.

Las colecciones de grifería están diseñadas para durar en el tiempo y los artículos son probados de manera rigurosa y exhaustiva tanto en el interior de la empresa como en laboratorios externos para garantizar su fiabilidad y resistencia, renovando y ampliando año tras año las certificaciones de los productos.

En Zucchetti, la garantía de la calidad y del servicio es un aspecto prioritario. Zucchetti obtuvo la certificación del sistema de calidad empresarial según la norma UNI EN ISO 9001 ya en 1995. Con este enfoque, actualiza constantemente sus sistemas y plantas productivas y respalda la profesionalidad de sus recursos humanos con programas de formación específicos, idóneos para asegurar también la protección de la salud y la seguridad. Todo esto ha permitido obtener la prestigiosa certificación UNI EN ISO 45001, que representa el más alto estándar internacional en materia.

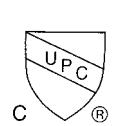

La obtención de la certificación UNI/PdR 125 para la igualdad de género en 2024 demuestra el compromiso concreto de Zucchetti para promover un ambiente laboral justo e inclusivo y representa otro paso importante en el proceso de mejora continua que caracteriza el planteamiento de la empresa para el futuro.

Zucchetti mantiene des normes de qualité élevées concernant les produits, les procédés de production et les politiques environnementales, et poursuit, pour ce faire, une stratégie d'entreprise basée sur l'amélioration continue.

Les collections de robinetterie sont produites pour durer. Les articles sont rigoureusement et soigneusement soumis à une série d'essais, en interne et comme dans des laboratoires d'essai extérieurs, qui garantissent leur fiabilité et leur résistance et permettent de renouveler et de prolonger les certifications de produits année après année.

Chez Zucchetti, notre priorité se résume en deux mots : qualité et service. Dès 1995, Zucchetti a obtenu la certification de son système qualité selon la norme UNI EN ISO 9001. Dans cette optique, les systèmes et les installations de production sont constamment modernisés, et le professionnalisme des ressources humaines est favorisé par des programmes de formation spécifiques, qui permettent également d'assurer la protection de leur santé et de leur sécurité. Nous avons ainsi obtenu la prestigieuse certification UNI EN ISO 45001, qui représente la norme internationale la plus élevée en la matière.

En 2024, l'obtention de la certification UNI/PdR 125 pour l'égalité des genres témoigne de l'engagement concret de Zucchetti à promouvoir un environnement de travail équitable et inclusif. Elle constitue une nouvelle étape importante dans le parcours d'amélioration continue qui caractérise l'approche de l'entreprise concernant l'avenir.

ECOSOSTENIBILIDAD / ÉCODURABILITÉ

La adopción de comportamientos sostenibles se ha convertido en un imperativo para todas las empresas y las personas que toman en serio el destino de la Tierra. La conciencia del valor del agua forma parte desde siempre del ADN de Zucchetti.

Su producción es ecosostenible y respeta plenamente el territorio: las actividades de control, depuración y reciclaje del agua utilizada en el proceso productivo se llevan a cabo con atención y constancia y con el compromiso de reutilizar o eliminar racionalmente los residuos de la producción. Desde hace tiempo, Zucchetti implementa acciones para limitar la producción del CO2 derivado del consumo de energía eléctrica.

Al realizar los productos de grifería o los sistemas de ducha, los proyectistas prestan la máxima atención al tema del consumo y adoptan soluciones y dispositivos ad hoc con el objetivo de obtener siempre un caudal limitado, de acuerdo con las normativas vigentes, asegurando un ahorro de agua y energía sin menoscabar el confort de uso.

Las colecciones PAN S, SABLIER, OCTO, ISY22, HELM, MEDAMEDA, BELLAGIO, JINGLE, PAN, TODD, BRIM, GILL, NIKKO y RIVO y las propuestas SHOWER garantizan el máximo ahorro de agua. Los productos llevan el símbolo Water Saving, que identifica:

- los artículos lavabo y bidé con un caudal de agua igual o inferior a 6 l/min
- los rociadores y duchas con un caudal de agua igual o inferior a 9 l/min

Una vasta gama capaz de responder a cualquier necesidad proyectual.

El cumplimiento de los estándares más estrictos, la atención constante y la continua actividad de investigación de la empresa dan fe de su firme compromiso con el medioambiente.

La certificación LEED (Leadership in Energy and Environmental Design), destinada a evaluar la sostenibilidad de los edificios, está adquiriendo una importancia creciente.

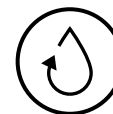

Por este motivo, la oficina técnica de Zucchetti ofrece asistencia a los constructores proporcionando toda la información necesaria para demostrar de que los productos Zucchetti instalados son conformes con los estándares necesarios para obtener esta certificación en el edificio examinado.

Il est devenu un impératif, pour tous ceux qui se préoccupent du sort de la planète, qu'il s'agisse d'entreprises ou de particuliers, d'adopter des comportements durables. La prise de conscience quant à la valeur de l'eau a toujours fait partie de l'ADN de Zucchetti. Notre production, qui respecte pleinement notre territoire, est écodurable : les activités de contrôle, d'épuration et de recyclage de l'eau utilisée dans le procédé de production sont conduites avec rigueur et constance, tout comme l'engagement à réutiliser les déchets d'usinage ou à les éliminer de manière rationnelle. Depuis longtemps, Zucchetti a également mis en œuvre des actions visant à limiter la production de CO2 liée à la consommation d'énergie électrique.

En phase de conception des produits, qu'il s'agisse de robinetterie ou de systèmes de douche, les concepteurs accordent la plus grande attention à la question de la consommation et adoptent des solutions et des dispositifs spécifiquement conçus pour obtenir un débit limité, conformément aux réglementations en vigueur, et assurer des économies d'eau et d'énergie sans rien enlever au confort d'utilisation.

Les collections PAN S, SABLIER, OCTO, ISY22, HELM, MEDAMEDA, BELLAGIO, JINGLE, PAN, TODD, BRIM, GILL, NIKKO et RIVO et les propositions SHOWER garantissent une économie d'eau maximale. Les produits portent le symbole Water Saving qui identifie :

- les lavabos et les bidets avec débit d'eau inférieur ou égal à 6 l/min ;
- les pommes de douche et les douchettes avec débit d'eau inférieur ou égal à 9 l/min.

Cette vaste gamme permet de répondre aux exigences de tous les types de projets.

La conformité aux normes les plus strictes, l'attention constante accordée à la question environnementale et les activités assidues de recherche témoignent de la détermination de l'entreprise à agir en faveur de l'écodurabilité.

La certification LEED (Leadership in Energy and Environmental Design), en matière d'évaluation de la durabilité des bâtiments, est en train d'acquérir une importance croissante.

C'est pourquoi le bureau technique de Zucchetti apporte son soutien aux constructeurs auxquels il fournit toutes les informations nécessaires qui permettent d'attester que les produits Zucchetti installés sont conformes aux normes requises pour obtenir cette certification dans le bâtiment concerné.

PREMIOS / PRIX

La voluntad de innovar es desde siempre un pilar fundamental de la filosofía empresarial de Zucchetti.

La capacidad de desarrollar ideas originales, unida a la experiencia y a la pericia industrial adquirida en 95 años de historia, nos ha permitido crear proyectos y productos únicos y de vanguardia premiados con los más prestigiosos reconocimientos internacionales de diseño.

Un merecido homenaje a la pasión y al compromiso cotidiano y constante de todos los miembros del equipo Zucchetti.

La volonté d'innover est depuis toujours un pilier de la stratégie d'entreprise de Zucchetti.

Notre capacité à développer des idées originales, notre expérience et notre savoir-faire industriel, développé au fil de nos 95 ans d'histoire, nous ont permis de créer des projets et des produits uniques et avant-gardistes, qui ont été récompensés par les prix internationaux de design les plus prestigieux.

C'est un hommage mérité à la passion et à l'engagement constant qui, chaque jour, animent tous les membres de l'équipe Zucchetti.

LA NUEVA TARIFA 2025 / LE NOUVEAU CATALOGUE 2025

La nueva tarifa Zucchetti 2025 está articulada en varias secciones para facilitar su consulta.

La primera parte está dividida en dos macrocapítulos:

- **WATERWORDS**, que incluye las colecciones de diseño de alta gama: Bellagio, Aguablu, Sablier, Agorà, Octo, Helm, Isy22, Medamedia, Pan S, Jingle y Pan.
- **LAB** que incluye las colecciones de carácter más esencial: Todd, Brim, Gill, Nikko y Rivo.

A continuación encontramos los capítulos dedicados a las distintas categorías:

- **Duchas** que incluye la colección Hoop y todos los rociadores, duchas y complementos de ducha
- **Productos electrónicos**
- **Cocina**
- **Accesorios de baño**

Y los capítulos dedicados a los elementos más técnicos:

- **Partes empotradas**
- **Artículos varios**
- **Repuestos y prolongaciones**

Se concluye con el capítulo dedicado a los lavabos, las bañeras y los complementos decorativos que completan la oferta para el baño.

La Tarifa 2025 representa una ayuda eficaz tanto para quien se ocupa de las ventas como para los proyectistas. Se abre con una rica sección técnica que ofrece información adicional sobre los acabados del catálogo y sobre los distintos tipos de cuerpos empotrables de nueva concepción, introducidos en todas las colecciones.

Las colecciones se presentan en orden decreciente de precio. La descripción de los artículos incluye: código, imagen, dibujo técnico con acotaciones, descripción, acabados y precio. Los artículos se presentan con su precio unitario, sin IVA. En los casos en los que se indica expresamente un paquete múltiple, el precio se refiere al paquete.

Le nouveau catalogue Zucchetti 2025 comprend plusieurs sections pour faciliter la consultation.

La première partie est divisée en deux grandes sections :

- **WATERWORDS** comprend les collections design haut de gamme : Bellagio, Aguablu, Sablier, Agora, Octo, Helm, Isy22, Medamedia, Pan S, Jingle et Pan.
- **LAB** rassemble les collections qui appartiennent à une gamme plus essentielle : Todd, Brim, Gill, Nikko et Rivo.

Elle est complétée par les sections consacrées à des catégories spécifiques :

- **Douches**, qui comprend la collection Hoop et toutes les pommes de douche, les douches et les accessoires de douche
- **Électroniques**
- **Cuisine**
- **Accessoires de salle de bains**

Et par les sections qui traitent des éléments plus techniques :

- **Corps d'encastrement**
- **Articles divers**
- **Pièces détachées et rallonges**

Enfin, la dernière section est consacrée aux lavabos, baignoires et éléments d'ameublement, qui complètent l'offre pour la salle de bains.

Le catalogue 2025 est un outil efficace pour les vendeurs comme pour les concepteurs. Au début du catalogue, une section technique complète fournit plus d'informations sur les finitions disponibles et sur les différents types d'encastresments récemment mis au point et ajoutés dans toutes les collections.

Les collections sont présentées par ordre décroissant de prix. Les différents articles décrits sont accompagnés d'un code, d'une photo, d'un dessin technique coté, d'une description, et de l'indication des finitions et du prix.

Le prix indiqué pour chaque article correspond au prix unitaire hors TVA. Quand il est fait expressément mention d'un emballage multiple, le prix fait référence à l'ensemble des pièces qu'il contient.

FOCUS DUCHA / OBJECTIF DOUCHE

Zucchetti ofrece múltiples propuestas para la personalización del espacio ducha, soluciones técnicas capaces de responder a cualquier necesidad de proyecto, eligiendo libremente la colección más adecuada para el estilo del propio baño.

Hoy el espacio de la ducha también se puede crear eligiendo los nuevos mezcladores termostáticos de botón Hoop, que gracias a un diseño esencial y transversal se pueden combinar con cualquier forma de grifería.

Los mezcladores termostáticos permiten programar la temperatura del agua a la gradación deseada y mantenerla constante durante todo el periodo de uso, aunque se verifiquen variaciones de presión o temperatura. La válvula termostática interna mezcla agua caliente y fría continuamente con el fin de mantener la temperatura de salida constante, a la gradación preprogramada. Un dispositivo de seguridad asegura que la temperatura del agua mezclada no supere inadvertidamente los 38 °C: para alcanzar temperaturas superiores, es necesario presionar una tecla de seguridad. Es una grifería cómoda, segura, fiable y ventajosa desde el punto de vista del ahorro, tanto hídrico como energético.

Zucchetti propose de nombreuses personnalisations pour la zone douche, des solutions techniques en mesure de répondre à toutes les exigences de conception, en choisissant librement la collection qui correspond le mieux au style de votre salle de bain.

Aujourd'hui, l'espace douche peut également être créé en choisissant les nouveaux mitigeurs thermostatiques à bouton-poussoir Hoop, qui, grâce à un design essentiel et transversal, peuvent être combinés avec n'importe quelle forme de robinetterie.

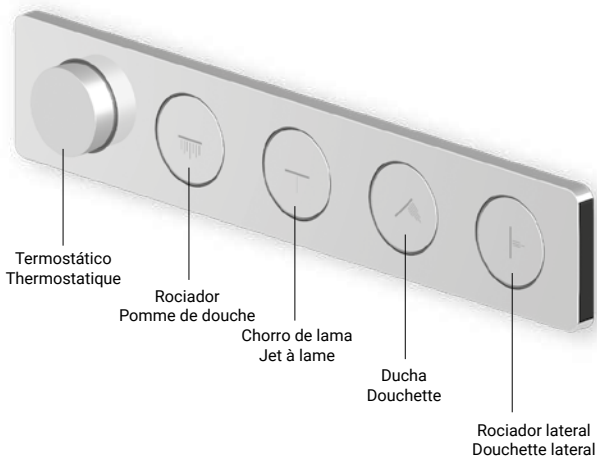

Les mitigeurs thermostatiques permettent de régler et d'atteindre rapidement la température de l'eau souhaitée en maintenant cette température constante tout au long de la période d'utilisation, quelles que soient les variations de pression ou de température. La vanne thermostatique interne mélange en continu l'eau chaude et l'eau froide afin de maintenir la température de sortie constante, à la température préréglée par l'utilisateur. Un dispositif de sécurité assure que la température de l'eau mélangée ne puisse pas dépasser par erreur 38 °C. Il n'est possible d'obtenir des températures plus élevées qu'en appuyant sur une touche de sécurité. Cette robinetterie est pratique, sûre, fiable et permet de réaliser d'avantageuses économies d'eau et d'énergie.

HOOP

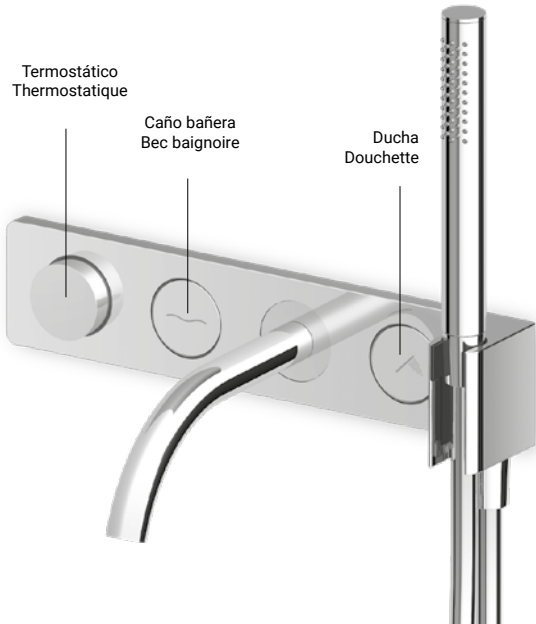

Esencial en sus formas, versátil, intuitivo y funcional. El sistema de ducha con pulsadores Hoop ha sido declinado en versión termostática para bañera y ducha, combinando de una a cuatro salidas de agua. Hoop combina la comodidad de la grifería termostática con una estética nueva, polivalente e inmediata. Con un simple gesto, el agua se abre o se cierra pulsando la tecla correspondiente al elemento deseado (ducha, rociador, caño, etc.) Hoop puede unirse a cualquier colección de grifería y instalarse en horizontal o en vertical, por lo que ofrece una gran libertad compositiva. El bienestar y la seguridad están siempre garantizados gracias a un dispositivo que no permite que la temperatura del agua supere inadvertidamente los 38 °C. Hoop se puede comprar eligiendo una de las configuraciones estándar propuestas o combinando libremente los elementos individuales.

Polyvalent, essentiel dans la forme, intuitif et fonctionnel. Hoop, le système de douche à bouton-poussoir, est disponible dans la version thermostatique pour bain et douche, combinant d'une à quatre sorties d'eau. Hoop allie le confort des robinets thermostatiques à une nouvelle esthétique polyvalente et immédiate. D'un simple geste, l'eau s'ouvre ou se ferme en appuyant sur le bouton correspondant à l'élément souhaité (douchette, pommeau de douche, bec, etc.). Hoop peut être combiné avec n'importe quelle collection de robinets et installé horizontalement ou verticalement, permettant une grande liberté de composition. Le bien-être et la sécurité sont toujours garantis grâce à un dispositif qui ne permet pas de dépasser par inadvertance la température de l'eau de 38°C. Hoop peut être acheté en choisissant l'une des configurations standard proposées ou en combinant librement les éléments individuels.

Z-BOX NUEVOS CUERPOS EMPOTRABLES / Z-BOX NOUVEAUX CORPS À ENCASTRER

Z-BOX es la nueva generación de cuerpos empotrables para mezcladores y termostáticos de Zucchetti.

Sus ventajas son numerosas:

- dimensiones compactas de los elementos para adaptarlos a cualquier tipo de pared, especialmente a las paredes de pladur
- impermeabilidad para garantizar una perfecta estanqueidad y evitar posibles fenómenos de condensación
- instalación inmediata y rápida
- uso de materiales ecosostenibles, partes metálicas de latón con bajo contenido de plomo, caja de ABS y polipropileno reciclado.

Z-BOX es una solución inteligente, innovadora y evolucionada que mejora la gestión de las fases de diseño, instalación, uso y mantenimiento de la grifería empotrada.

Z-BOX est la nouvelle génération de corps à encastrer pour mitigeurs et mitigeurs thermostatiques de Zucchetti.

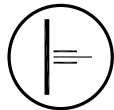

Ils présentent de multiples avantages :

- éléments faiblement encombrants pour qu'ils puissent s'adapter à tous les types de murs, en particulier en plaques de plâtre ;
- imperméabilité afin d'assurer une parfaite étanchéité et d'éviter d'éventuels phénomènes de condensation ;
- installation immédiate et rapide ;
- utilisation de matériaux écologiques, de parties métalliques en laiton à basse teneur en plomb, de boîtiers en ABS et polypropylène recyclé.

Z-BOX est une solution intelligente, innovante et d'avant-garde, qui assure une meilleure gestion des phases de conception, d'installation, d'utilisation et de maintenance de la robinetterie encastrée.

ACABADOS 2025 / FINITIONS 2025

Las colecciones Zucchetti se proponen en una amplia gama de acabados pensados para satisfacer las tendencias del estilo de vida contemporáneo y para que el proyectista pueda identificar la solución ideal para cada estilo de proyecto.

Para los productos de latón, Zucchetti propone:

- acabados galvanizados disponibles en distintas tonalidades, tanto brillantes como cepillados;
- acabados barnizados en varios colores y combinaciones;
- acabados PVD en varias gradaciones. Extremadamente duros y resistentes, inalterables en el tiempo y atóxicos, los acabados PVD garantizan excelentes prestaciones y resultan especialmente idóneos para los proyectos de hostelería.

Para los productos de acero inoxidable, Zucchetti propone:

- acabados cepillados en distintas tonalidades obtenidos mediante proceso PVD. Extremadamente duros, resistentes, inalterables en el tiempo y atóxicos, estos acabados garantizan excelentes resultados y son especialmente idóneos para la hostelería.
- acabados mates realizados mediante arenado y disponibles en varias tonalidades obtenidas con proceso PVD. Estos acabados también son extremadamente duros, resistentes, inalterables en el tiempo y atóxicos, por lo que son ideales para la hostelería.

Los acabados Zucchetti se realizan utilizando tecnologías de vanguardia y cuidando meticulosamente cada detalle para entregar al cliente productos impecables y aptos para todo tipo de necesidades.

Todos los cabezales de acero inoxidable cepillado —acabado .X— se pueden combinar también con la grifería en acabado níquel cepillado .C3.

La tabla siguiente resume las variantes de color indicadas en la tarifa para cada colección.

Les collections Zucchetti sont proposées dans une vaste gamme de finitions conçues pour se conformer aux tendances contemporaines de l'art de vivre et permettre au concepteur de trouver la solution optimale pour chaque type de projet.

Pour les produits en laiton, Zucchetti propose :

- des finitions galvanisées disponibles dans différentes teintes, brillantes ou brossées ;
- des finitions laquées de différentes couleurs et combinaisons ;
- des finitions PVD dans différentes nuances. Extrêmement dures et durables, inaltérables dans le temps et atoxiques, les finitions PVD présentent d'excellentes performances et sont particulièrement adaptées aux projets pour l'hôtellerie.

Pour les produits en acier inoxydable, Zucchetti propose :

- des finitions brossées dans différentes teintes obtenues au moyen du procédé PVD. Extrêmement dures, résistantes, inaltérables et non toxiques, ces finitions présentent des caractéristiques optimales et sont particulièrement adaptées à l'hôtellerie.
- des finitions mates obtenues par sablage et disponibles dans différentes teintes grâce au procédé PVD. Comme les précédentes, ces finitions, extrêmement dures, résistantes, inaltérables et non toxiques, sont optimales pour l'hôtellerie.

Les finitions Zucchetti sont réalisées grâce à des technologies de pointe, en accordant un soin méticuleux à chaque détail, afin de fournir aux clients des produits impecables et adaptés à toutes les exigences.

Toutes les pommes de douche en acier inoxydable brossé - finition .X - peuvent également être assorties à la robinetterie avec une finition en nickel brossé .C3.

Le tableau ci-dessous récapitule les différentes teintes disponibles pour chaque collection.

LEYENDA ICONOS / LÉGENDE DES PICTOGRAMMES

Para facilitar la consulta de la tarifa y favorecer un acceso inmediato e intuitivo a su información, se han añadido varios iconos en la descripción de cada artículo.
A continuación se incluye su leyenda.

Différents pictogrammes ont été ajoutés à la description de chaque article afin de faciliter la consultation du catalogue et de trouver diverses informations de manière immédiate et intuitive.
La légende des pictogrammes est indiquée ci-dessous.

ZUCCHETTI.

CONDICIONES DE VENTA

Con la transmisión del pedido se consideran integralmente aceptadas todas las siguientes condiciones de venta de Zucchetti Rubinetteria S.p.A. (en adelante también "Zucchetti" "Compañía" o "Vendedor").

PRECIOS

Los precios de las tarifas Zucchetti están indicados en € (euros), están sujetos a variaciones y no son vinculantes. Se refieren a la mercancía entregada franco fábrica y no incluyen el IVA ni los embalajes. Todos los pedidos, independientemente del modo en el que hayan sido transmitidos, podrán considerarse válidos solamente si han sido aceptados mediante confirmación regular de pedido. Todas las ofertas directas e indirectas se consideran no vinculantes. La tarifa de precios de Zucchetti está reservada a las empresas y a los operadores económicos.

PAGOS

Las condiciones de pago indicadas en la factura se consideran obligatorias: todo cambio que no haya sido acordado previa y expresamente será rechazado. En caso de retraso en el pago de los suministros se cargarán los intereses de demora tal como establece la normativa vigente. En caso de que los pagos no se efectúen en los plazos convenidos, el Vendedor tiene la facultad de suspender las entregas y los posibles pedidos aceptados hasta el momento. Se precisa que no será posible aplazar ningún pago en caso de reclamación. Las posibles integraciones o modificaciones efectuadas por el Cliente en los pedidos transmitidos por el mismo no serán válidos si no han sido comunicados por escrito, y luego aceptado, nuevamente por escrito, por el Vendedor. En caso de que el Cliente no pague los importes debidos en los tiempos establecidos o no cumpla otras obligaciones presentes en las condiciones de venta y/o firmadas en otros escritos, el Vendedor tendrá la facultad de suspender toda relación de suministro con efecto inmediato, reteniendo en concepto de penalización las sumas ya pagadas y sin perjuicio de cualquier demanda posterior de resarcimiento de daños. Todo ello sin ninguna carga penal o responsabilidad ante el Cliente.

DATOS IDENTIFICATIVOS DEL CLIENTE

El Cliente es responsable de todos los datos de identificación facilitados al Vendedor como: Razón Social - Domicilio Legal - Código de identificación fiscal – N.º I.V.A. y cualquier otro dato que sea exigido por la legislación vigente.

PLAZOS DE ENTREGA

Los plazos de entrega son aproximativos y no confieren al Cliente el derecho a anular el pedido o a reclamar daños de ningún tipo por los posibles retrasos provocados por accidentes de fabricación, huelgas, de pandemia, motivos relacionados con el transporte o cualquier otra causa de fuerza mayor o caso fortuito. El Vendedor se reserva el derecho a despachar el pedido con varias entregas, en función de la efectiva disponibilidad del producto.

EMBALAJE

Los embalajes son realizados de una manera profesional por personal especializado.

TRANSPORTE

La mercancía viaja por cuenta y riesgo del Cliente y, aunque el envío se realice a portes pagados, el Vendedor declina toda responsabilidad por los retrasos, daños, averías, roturas o deformaciones que puedan verificarse durante el transporte. El Cliente debe presentar sus posibles reclamaciones al transportador solicitando una declaración de inmediata constatación, aunque este haya sido elegido por el Vendedor.

El Vendedor se reserva el derecho a cargar al Cliente cualquier gasto adicional al mero coste del transporte (p. ej.: paradas, operaciones de descarga particulares, etc.) que haya podido ser abonado al transportador. Siempre que no exista un acuerdo contrario, los gastos de transporte corren a cargo del Cliente.

RESPONSABILIDAD

Todos los artículos del Vendedor son cuidadosamente probados y controlados. La responsabilidad del Vendedor en lo que respecta a la calidad de los materiales se limita, previa autorización, a aceptar la devolución a portes pagados en Gozzano, con embalaje gratuito, de las piezas consideradas defectuosas para disponer su sustitución, sin obligación de pagar ninguna indemnización. No se aceptará ninguna responsabilidad en caso de que los materiales suministrados hayan sido alterados. Se excluye todo tipo de resarcimiento por los daños directos o indirectos causados por la instalación de material defectuoso. Se prohíbe terminantemente a los Clientes alterar de cualquier modo los productos del Vendedor. El Vendedor no aceptará ninguna devolución que no haya sido previamente autorizada por el mismo.

DISPOSICIONES GENERALES

El Vendedor se reserva el derecho a modificar las características técnicas de los productos y a modificar o suprimir modelos en cualquier momento. Las ilustraciones y las descripciones ofrecidas en la presente tarifa (o en los catálogos) representan los distintos artículos comercializados y no constituyen una obligación de fiel ejecución. Los detalles, las medidas y los pesos indicados deben considerarse como aproximativos y pueden ser modificados sin preaviso.

RECLAMACIONES

Las reclamaciones deben efectuarse en un plazo de 8 (ocho) días desde la recepción de la mercancía en el mercado italiano y en un plazo de 2 (dos) días desde la recepción de la mercancía en los mercados extranjeros. Después de este plazo no podrán ser aceptadas. La reclamación deberá ser recibida por el Vendedor mediante una comunicación escrita que debe incluir: los detalles de los defectos observados, el número de piezas defectuosas detectadas, los procedimientos de verificación utilizados, las referencias de la entrega (documento de transporte y detalles de las etiquetas aplicadas en el cartón) y todo elemento útil (p. ej. fotografías) para permitir que el Vendedor pueda localizar el producto objeto de reclamación y sus relativos registros y realizar las primeras acciones inmediatas de corrección.

Las posibles solicitudes de devolución o reelaboraciones/selecciones en la sede del Cliente serán autorizadas después de llevar a cabo las oportunas evaluaciones. El Cliente no está autorizado a suspender en ningún caso el pago del producto objeto de reclamación. El Cliente no podrá efectuar ninguna transformación, reparación o intervención en el producto que no haya sido acordada previamente con el Vendedor.

TRIBUNAL COMPETENTE

Para cualquier controversia se acuerda expresamente que se deberá recurrir exclusivamente a las autoridades judiciales competentes de Borgomanero y Novara. Para todo lo que no haya sido acordado expresamente, resultan válidas las normas legales vigentes.

ZUCCHETTI.

CONDITIONS GÉNÉRALES DE VENTE

La confirmation de commande désigne l'acceptation totale de l'acheteur de toutes les conditions de vente suivantes : (ci-après également "Zucchetti" "Société" ou "Vendeur").

PRIX

Les prix indiqués dans les tarifs Zucchetti sont exprimés en € (euros), ils sont sujets à variations et ne sont pas contraignants. Les prix s'appliquent pour les marchandises livrées franco usine, hors TVA et sans emballage. Toute commande, dans tous les cas passés, ne pourra être considérée comme valide qu'après acceptation et confirmation par écrit. Toutes les offres de prix directes ou indirectes s'entendent sans engagement. Le tarif Zucchetti est réservé à l'usage des professionnels et des opérateurs économiques.

PAIEMENTS

Les conditions de paiement spécifiées dans la facture sont contractuelles: toute modification qui n'aura pas préalablement et expressément fait l'objet d'un accord sera refusée. Tout retard dans le paiement des fournitures entraînera la facturation des intérêts moratoires prévus par la réglementation en vigueur. En cas de paiement non effectué dans les délais convenus, le Vendeur se réserve la faculté de suspendre les livraisons ainsi que les commandes éventuellement déjà acceptées. Il est précisé qu'aucun paiement ne pourra être différé en cas de contestation. Tous les ajouts ou modifications effectués par le Client dans les commandes transmises seront dépourvus de validité à moins d'avoir été communiqués par écrit et puis accepté, à nouveau par écrit, par le Vendeur.

Si le Client n'effectue pas les paiements des montants dus dans les délais convenus, ou s'il fait défaut à d'autres obligations indiquées dans les conditions de vente et/ou paraphées dans d'autres documents, le Vendeur aura le droit de résilier sans délai tout rapport de fourniture, en retenant à titre de pénalité les sommes correspondantes qui ont déjà été payées, sans préjudice aucun de toute autre demande de dommages-intérêts. Tout ceci sans aucune charge pénale ou responsabilité vis-à-vis le Client.

DONNÉES D'IDENTIFICATION DU CLIENT

Le Client est responsable de toutes les données d'identification fournies au Vendeur, comme : Dénomination sociale - Siège social – Code d'identification fiscale – Numéro de TVA italienne et tout ce qui est expressément requis par la législation en vigueur.

DÉLAIS DE LIVRAISON

Les délais de livraison sont donnés à titre indicatif et n'autorisent en aucun cas le Client à annuler la commande ou à réclamer des dommages de quelque nature que ce soit en cas de retards dérivant de problèmes de fabrication, de grèves, de pandémie, de transports ou d'autres causes de force majeure ou d'événements fortuits. Le Vendeur se réserve la faculté d'exécuter une commande en réalisant plusieurs livraisons selon la disponibilité effective des produits.

EMBALLAGE

L'emballage de la marchandise est réalisé dans les règles de l'art par du personnel spécialisé.

TRANSPORT

La marchandise voyage aux risques et périls du Client, et même si l'expédition est effectuée franco de port, le Vendeur décline toute responsabilité pour les retards, les pannes, les avaries, les ruptures ou les heurts survenant pendant le transport. Il incombe au Client de présenter toute réclamation éventuelle au transporteur en effectuant une déclaration de constatation immédiate, même si ce transporteur a été choisi par le Vendeur. Le Vendeur se réserve le droit de facturer au Client les frais supplémentaires par rapport au coût de transport effectif (par exemple : arrêts, opérations particulières de déchargement, etc.), frais qui ont éventuellement été payés au transporteur. Sauf accord contraire, les frais de transport sont à la charge du Client.

RESPONSABILITÉ

Tous les articles du Vendeur sont soigneusement testés et contrôlés. En ce qui concerne la qualité des produits, la responsabilité du Vendeur se limite à l'acceptation, sur autorisation, des pièces, franco de port à Gozzano et avec emballage gratuit, qui sont considérées comme défectueuses, en vue d'effectuer le remplacement de ces pièces défectueuses, sans que le Vendeur soit tenu à verser une quelconque indemnité.

Par ailleurs, aucune responsabilité ne sera acceptée lorsque les produits fournis auront subi des modifications. En cas de dommages directs ou indirects causés par la pose d'un produit défectueux, tout type de dédommagement sera exclu. Il est par conséquent strictement interdit aux Clients d'apporter tout type de modification aux produits du Vendeur. Le Vendeur n'acceptera pas les retours de marchandises qu'il n'aura pas autorisés.

DISPOSITIONS GÉNÉRALES

Le Vendeur se réserve le droit de modifier à tout moment les caractéristiques techniques de ses produits, mais aussi de modifier ou de supprimer des modèles. Les illustrations et les descriptions contenues dans le présent tarif (ou dans les catalogues) sont une simple représentation de chacun des produits, et ne constituent pas une fidèle représentation d'exécution. Les détails, les dimensions et les poids indiqués sont donnés à titre purement indicatif et peuvent être modifiés sans préavis.

RÉCLAMATIONS

Les réclamations devront être présentées dans un délai de 8 (huit) jours à compter de la réception de la marchandise sur le marché italien, et dans un délai de 2 (deux) jours à compter de la réception de la marchandise sur les marchés étrangers. Toute réclamation présentée après ces délais ne sera plus acceptée. La contestation doit être envoyée au Vendeur par écrit, et indiquer: la description détaillée des défauts relevés, le nombre de pièces défectueuses identifiées, les modalités de vérification adoptées, les références de la livraison (DDT et détails des étiquettes apposées sur la boîte en carton) ainsi que tout élément utile (comme des photographies) pour permettre au Vendeur de tracer le produit ainsi que l'historique des enregistrements correspondants en lien avec la contestation, et de mettre éventuellement immédiatement en œuvre les premières actions de correction. Toute demande de retour ou de retraitement/sélection chez le Client ne sera autorisée qu'après les estimations appropriées. Le Client ne peut en aucun cas suspendre le paiement du produit objet de la contestation. Il est interdit au Client de réaliser tout type de traitement, réparation ou intervention sur le produit sans autorisation préalable du Vendeur.

TRIBUNAL COMPÉTENT

En cas de litige, il est expressément convenu que seules les autorités judiciaires de Borgomanero et de Novara seront compétentes. Les dispositions de droit actuellement en vigueur s'appliquent pour tout ce qui n'est pas expressément prévu dans les présentes.

ZUCCHETTI. GARANZIA

Todos los productos Zucchetti son sometidos a meticulosos controles durante cada fase del ciclo productivo con el fin de ofrecer la máxima garantía de calidad del producto.

Los productos están garantizados en conformidad con las leyes vigentes en materia de garantía para las compras comprobadas mediante documento fiscal en el país donde el comprador tiene su domicilio legal.

La garantía cubre los siguientes casos:

- 1** Defectos de fusión, porosidad y acabados superficiales.
- 2** Defectos de fabricación reconocidos por el departamento técnico Zucchetti.

La garantía no se aplica y queda anulada en caso de:

- 1** Deterioro de los acabados superficiales debido al uso de productos para la limpieza que contengan ácidos o sustancias abrasivas
- 2** Deterioro de los acabados superficiales causado por depósitos de cal.
- 3** Instalación o uso de los productos de manera inapropiada o que no cumpla con las condiciones de uso especificadas en los documentos que se encuentran dentro del embalaje del producto.
- 4** Reparaciones y mantenimientos realizados por personal no autorizado por la empresa o con repuestos no originales
- 5** Fenómenos atmosféricos
- 6** Sobretensiones en el sistema de energía eléctrica

La garantía sólo se puede aplicar previa entrega a la empresa de fotografías y/o muestras de los productos defectuosos.

La reclamación deberá ser recibida mediante una comunicación escrita que debe incluir: los detalles de los defectos observados, el número de piezas defectuosas detectadas, los procedimientos de verificación utilizados, las referencias de la entrega (documento de transporte y detalles de las etiquetas aplicadas en el cartón) y todo elemento útil (p. ej. fotografías) para permitir localizar el producto objeto de reclamación y sus relativos registros/documentación y realizar las primeras acciones inmediatas de corrección.

La garantía Zucchetti no es renovable.

Para obtener información más detallada, consulte el documento M-UFC009 que puede consultarse en el siguiente enlace:
<https://www.zucchettidesign.it/garanzia>

ZUCCHETTI. GARANTIE

Tous les produits Zucchetti sont soumis à de soigneux contrôles au cours de toutes les phases du cycle de production dans le but de fournir les meilleures garanties quant à la qualité du produit.

Les produits sont garantis conformément aux lois en vigueur en matière de garantie dans le pays où l'acheteur a son siège social, pour les achats qui sont prouvés par un document fiscal valable.

La garantie couvre les cas suivants :

- 1** Défauts de fusion, de porosité et de finitions de surface
- 2** Défauts de fabrication reconnus par le bureau technique Zucchetti.

La garantie ne s'applique pas et devient caduque en cas de :

- 1** Détérioration des finitions de surface due à l'utilisation de produits de nettoyage contenant des acides ou des substances abrasives
- 2** Détérioration des finitions de surface causée par les dépôts de calcaire
- 3** Installation ou utilisation des produits de manière inappropriée ou non conforme aux conditions d'utilisation précisées dans les documents présents à l'intérieur de l'emballage du produit
- 4** Réparations et entretien effectués par du personnel non autorisé par l'entreprise ou avec des pièces détachées non originales
- 5** Phénomènes atmosphériques
- 6** Surtensions sur le réseau électrique

La garantie ne peut être appliquée qu'après fourniture à l'entreprise de photos et/ou d'échantillons des produits défectueux.

La contestation doit être envoyée par écrit, et indiquer: la description détaillée des défauts relevés, le nombre de pièces défectueuses identifiées, les modalités de vérification adoptées, les références de la livraison (DDT et détails des étiquettes apposées sur la boîte en carton) ainsi que tout élément utile (comme des photographies) pour permettre de tracer le produit ainsi que l'historique des enregistrements correspondants en lien avec la contestation, et de mettre éventuellement immédiatement en œuvre les premières actions de correction.

La garantie Zucchetti n'est pas renouvelable.

ZUCCHETTI. CUIDADO Y MANTENIMIENTO DEL PRODUCTO

Para mantener los productos en perfecto estado durante mucho tiempo y evitar depósitos de cal, es importante realizar una limpieza periódica y profunda, según los métodos indicados.

Las superficies de los productos deben limpiarse con detergentes neutros suaves o con agua y jabón. Zucchetti recomienda utilizar el producto Zetabril (art. R99993) como alternativa.

Siempre enjuague las superficies con cuidado para eliminar permanentemente los residuos del producto de limpieza y seque bien con un paño suave para evitar depósitos de cal.

Es importante no utilizar nunca limpiadores que contengan clorhídrico, fluorhídrico, fosfórico, fórmico, ácido acético, lejía o amoníaco. En caso de utilizar productos potencialmente nocivos, aclarar inmediatamente con abundante agua.

Nunca rocíe detergentes directamente sobre los productos, rocíelos sobre un paño suave.

No utilice limpiadores a vapor ya que las altas temperaturas pueden dañar los productos.

No utilice esponjas o cepillos con efecto abrasivo que dañarían irremediablemente las superficies.

Se aconseja evitar dejar residuos de productos cosméticos o de higiene como cremas, jabones, lociones, dentífricos, etc. sobre las superficies durante mucho tiempo.

PRODUCTOS EN ACABADO PINTADO

Sobre superficies pintadas, utilice sólo agua si es necesario con la adición de detergentes neutros (pH 6,5 - 7,5) y caracterizados por aditivos ligeros.

Nunca utilice disolventes o paños abrasivos.

PRODUCTOS EN ACABADO PVD

Para superficies con acabado PVD, utilizar siempre un paño empapado en detergente diluido con pH neutro (6,5 - 7,5). Nunca rocíe el limpiador directamente sobre la superficie ya que el rocío puede dejar rayas. No utilice detergentes que contengan ácido clorhídrico, ácido fórmico o ácido acético, o que contengan componentes ácidos o abrasivos.

PRODUCTOS DE ACERO INOXIDABLE

Para limpiar todos los grifos de acero inoxidable, se recomienda utilizar productos específicos para el cuidado del acero inoxidable. Se pueden utilizar detergentes comerciales con pH neutro (6,5 - 7,5) y, si es necesario, solo en las partes de acero, alcohol isopropílico diluido o carbonato de sodio.

No utilice en particular detergentes a base de ácidos clorhídrico, fluorhídrico, fosfórico y muriático.

ROCIADORES

Para el buen funcionamiento de los rociadores a lo largo del tiempo y para evitar la acumulación de cal, recomendamos limpiar periódicamente las boquillas antical, frotándolas suavemente con un paño suave para ayudar a despegar los depósitos.

AIREADORES

Para tener siempre un buen chorro de agua, recomendamos la limpieza periódica de los filtros de los aireadores, sumergiéndolos (después de desmontarlos) en una solución de vinagre diluido o utilizando el producto Zetabril (art. R99993).

Algunos acabados (C8, C3, C50, C51, C40, C41) pueden variar o cambiar de color con el tiempo, ya que están sujetos a oxidación y cambian según el entorno en el que se instala el producto, el uso y las propiedades del agua. Esto implica que cada producto puede adquirir una apariencia única con el tiempo.

ZUCCHETTI. ENTRETIEN ET MAINTENANCE DU PRODUIT

Pour maintenir les produits en parfait état pendant longtemps et éviter les dépôts de calcaire, il est important d'effectuer un nettoyage périodique et approfondi, selon les méthodes indiquées.

Les surfaces des produits doivent être nettoyées avec des détergents neutres doux ou avec de l'eau et du savon. Zucchetti recommande d'utiliser le produit Zetabrill (art. R99993) comme alternative.

Rincez toujours soigneusement les surfaces pour éliminer définitivement les résidus de produit de nettoyage et séchez bien avec un chiffon doux pour éviter les dépôts de calcaire.

Il est important de ne jamais utiliser de nettoyeurs contenant de l'acide chlorhydrique, fluorhydrique, phosphorique, formique, acétique, de l'eau de Javel ou de l'ammoniac. En cas d'utilisation de produits potentiellement nocifs, rincer immédiatement et abondamment à l'eau.

Ne vaporisez jamais de détergents directement sur les produits, mais vaporisez-les sur un chiffon doux.

N'utilisez pas de nettoyeurs à vapeur car des températures élevées peuvent endommager les produits.

Ne pas utiliser d'éponges ou de brosses à effet abrasif qui endommageraient irrémédiablement les surfaces.

Il est conseillé d'éviter de laisser des résidus de produits cosmétiques ou d'hygiène tels que crèmes, savons, lotions, dentifrices, etc. sur les surfaces pendant une longue période.

PRODUITS DE FINITION PEINTS

Sur les surfaces peintes, utiliser uniquement de l'eau si nécessaire avec l'ajout de détergents neutres (pH 6,5 - 7,5) et caractérisés par des additifs légers. N'utilisez jamais de solvants ou de chiffons abrasifs.

PRODUITS EN FINITION PVD

Pour les surfaces en finition PVD, toujours utiliser un chiffon imbibé de détergent dilué à pH neutre (6,5 - 7,5). Ne vaporisez jamais le nettoyant directement sur la surface car le spray peut laisser des traces. N'utilisez pas de détergents contenant de l'acide chlorhydrique, de l'acide formique ou de l'acide acétique, ou contenant des acides ou des composants abrasifs.

PRODUITS EN ACIER INOXYDABLE

Pour nettoyer tous les robinets en acier inoxydable, il est recommandé d'utiliser des produits spécifiques pour l'entretien de l'acier inoxydable. Des détergents commerciaux à pH neutre (6,5 - 7,5) et, si nécessaire, uniquement sur les parties en acier, de l'alcool isopropylique dilué ou du carbonate de sodium peuvent être utilisés.

Ne pas utiliser en particulier de détergents à base d'acides chlorique, fluorhydrique, phosphorique et muriatique.

POMME DE DOUCHE

Pour que les pomme de douche fonctionnent correctement dans le temps et pour éviter l'accumulation de calcaire, nous vous conseillons de nettoyer régulièrement les buses anti-calcaire en les frottant légèrement avec un chiffon doux pour aider à détacher les dépôts.

AÉRATEURS

Pour avoir toujours un bon jet d'eau, nous recommandons de nettoyer périodiquement les filtres des aérateurs, en les plongeant (après les avoir démontés) dans une solution de vinaigre dilué ou en utilisant le produit Zetabrill (art. R99993).

Certaines finitions (C8, C3, C50, C51, C40, C41) peuvent varier ou changer de couleur avec le temps, car elles sont sujettes à l'oxydation et changent en fonction de l'environnement dans lequel le produit est installé, de l'utilisation et des propriétés de l'eau. Cela implique que chaque produit peut prendre une apparence unique au fil du temps.
